## D3I Projected Requirements

TORP #	Effort Title	Effort Description	Recommended Contract Vehicle	Draft TORP	Final TORP issued	Anticipated Award	Status
1 2-1601	Wargames, Simulations, & Scenario Development (WSSD)	Test scenarios of red missile defense, cyber and/or space forces/systems versus blue missile defense, cyber and/or space forces/systems using tools and simulations. Develop tools and simulations, scenarios, and study plans to support SMDC/ARSTRAT mission areas.	Domain 2	OBE	14-Jul-16	1st QTR FY17	Proposal evaluations are on going.
2 TBD	Information, Integration, and Execution (I2D)	Continue the development and maintenance of the Regional Web Initiative Program (RWIP) in support of the U.S. Central Command (USCENTCOM).	Domain 2	TBD	TBD	TBD	Contract Requirement Package is being developed.
3 3-1605	High Energy Laser Demonstrations and Test Support (HELMTT)	To develop 50 kW and 100 kW class pre-prototype weapon systems and demonstrate, in a relevant operational environment, a mobile laser weapon system that can provide an effective mission capability to counter Unmanned Aircraft Systems (UAS), rocket and artillery and mortar (RAM) projectiles. The system is designed to be capable of executing an end-to-end HEL engagement.	Domain 3	TBD	TBD	TBD	Contract Requirement Package is being developed.
4 3-1602	PdD Tactical Space Superiority (TSS)	The TSS EMD effort will complete full system integration and deliver two production representative systems (PRS). The PRS will support multiple tests and demonstrate interoperability, supportability, safety, utility, and Soldier interface. Further, the same MAIDIQ will preferable support production of a low density number of systems and provide CLS after fielding.	Domain 3	TBD	TBD	TBD	Contract Requirement Package is being developed.
5 TBD	TSS Sustainment	Mission area maintenance & sustainment effort for 1st Space Brigade mission systems. Will 1st Space Brigade uniformed soldiers the ability to provide maintenance or other sustainment support to prototype systems currently fielded. Provide train the trainer support on newly fielded prototype capabilities within the existing system post system wide technical refresh.	Domain 2	TBD	TBD	TBD	Contract Requirement Package is being developed.
6 TBD	Rapid Innovation Fund (RIF)	Prototype development, analysis, and flight test	Domain 3	TBD	TBD	TBD	Contract Requirement Package is being developed.
7 2-1604	Exportable Combat Training Center (E-CTC)	Provide technical services and support services to include provide engineering, technical, and programmatic support services. The contract requirements include providing qualified personnel, materials, facilities, equipment, test instrumentation, data collection and analysis hardware and software. Specific areas include: Research and Development; Education and Training Support; C4ISR Systems Management; Engineering, Systems Engineering and Process Engineering Support; Modeling, Simulation and Analysis Support; and Software Engineering, Development, and Programming.	Domain 2	TBD	TBD	TBD	Contract Requirement Package is being developed.
8 1-1603	High Energy Laser Tactical Vehicle Demonstrator (HELTVD)	The Army's next generation High Energy Laser (HEL) integrated system demonstration. A pre-prototype 100kw class laser weapon system fully integrated onto a single 10 ton variant of the Family of Medium Tactical Vehicles (FMTV). This High Energy Laser Tactical Vehicle Demonstrator (HELTVD) will be designed, fabricated, and tested to technology readiness level 6 maturity.	Domain 1	TBD	TBD	TBD	Contract Requirement Package is being developed.
9 2-1606	NCR-IADS	National Capital Region-Integrated Air Defense Systems (NCR-IADS)	Domain 2	TBD	TBD	TBD	Contract Requirement Package is being developed.
10 TBD	SPACE OPERATIONS AND SUPPORT SERVICES (SOSS)	More information to follow.	TBD	TBD	TBD	TBD	Contract Requirement Package is being developed.

# CCAM-CAB-A LITeS II Re- compete

## Action

- LOGSA Information Technology Support II (LITeS II)
- Requirement Description: High quality, efficient and effective full range of Information Technology (IT) support and Data Center services.

## Strategy

- Data Center Portion - The requirement will substantially reduce/change with removal of the Data Center portion of the requirement.
  - In order to meet Army Directive's, the Logistics Information Warehouse (LIW) data storage is projected to transfer to DISA sometime in FY18.
  - The current contract will require modification to facilitate the transfer to DISA.

## Status

- Labor Portion - LOGSA must reevaluate the requirement to identify and separate what portion of the labor requirement aligns with the Data Center and which does not. The labor portion that does not align with the Data Center will become the new requirement(s).
- It is possible that LOGSA will breakout the labor portion of the contract into one or more requirements dependent on future mission requirements and existing contract vehicles.

## Projected Milestones

- Plan to execute a modification on the current contract to allow for DISA consolidation to take place.
